BAND DESCRIPTORS FOR SUMMARY

MARK	PARAPHRASE (RP)	MARK	USE OF ENGLISH (UE)
5	<ul style="list-style-type: none"> There is a sustained attempt to rephrase the text language. Expression is secure. Allow phrases from the text, which are difficult to substitute. 	5	<ul style="list-style-type: none"> Apart from very occasional slips, the language is accurate. Any occasional errors are either first draft slips or minor errors. Sentence structure is varied and there is a marked ability to use original complex syntax outside text structures. Punctuation is accurate and helpful to the reader. Spelling is secure across the full range of vocabulary used.
4	<ul style="list-style-type: none"> There is a noticeable attempt to rephrase the text. The summary is free from stretches of concentrated lifting. Expression is generally sound. 	4	<ul style="list-style-type: none"> The language is almost always accurate. Serious errors will be isolated as to be almost unnoticeable. Sentences will show some variation including original syntax outside text structures. Punctuation is accurate and generally helpful. Spelling is nearly always secure.
3	<ul style="list-style-type: none"> Intelligent and selective lifting, i.e. when groups of words are combined with own words. Limited attempt to rephrase the text. Expression may not always be secure but the attempt to substitute will gain credit. 	3	<ul style="list-style-type: none"> The language is largely accurate. Simple structures tend to dominate. Serious errors are not frequent, although they are noticeable. Where sentences show some variety and complexity, they will generally be lifted from the text. Serious errors may occur when more sophisticated structures are attempted. Punctuation is largely accurate. Spelling is mostly secure. Errors may occur in the use of original or ambitious vocabulary
2	<ul style="list-style-type: none"> Wholesale copying of text material, i.e. in chunks not a complete script of the original. Attempts to substitute own language will be limited to single word expression. Irrelevant sections of the text will be more frequent at this and subsequent levels. 	2	<ul style="list-style-type: none"> Meaning not in doubt, but serious errors are becoming more frequent. Simple structures will be accurate, although this accuracy is not sustained for long. Simple punctuation will usually be correct, with occasional errors of sentence separation. Spelling is largely accurate, but mistakes will occur in handling the more difficult words. Irrelevant or distorted detail will destroy the sequence in places.
1	<ul style="list-style-type: none"> More or less a complete transcript of the text. This means sentence after sentence copied without a clear break. Originality barely noticeable. There will also be random transcription of irrelevant sections of the text. 	0-1	<ul style="list-style-type: none"> Heavy frequency of serious errors, impeding the reading in many places. Fractured syntax is much more pronounced at this level, and punctuation falters. Errors of sentence separation are liable to be frequent.
